Looking to improve your English? Elgin Community College has a nationally recognized Intensive English Program. English classes can be taken before starting your program of study. This full-time academic program works through English language immersion and is for all English language learners. Intensive English Program (IEP) consists of four course levels – listening, reading, writing and pre-collegiate. Every four weeks, students are re-assessed and have the opportunity to move one to the next level. In addition to the four levels, students select from a variety of elective courses to enrich their studies. After completing the program, you can pursue your degree with confidence in your English skills.
