德拉瓦大學 University of Delaware

Virtual Lincoln American Education Fair in Taiwan

Introduction of the school

The University of Delaware is a public, tier 1 research university ranked in the top 100 national universities and top 50 public universities. UD is medium sized with 25,000 total students and offers 150 majors to undergraduate students, with our strongest majors in engineering, business, and the sciences. Our traditionally beautiful campus located in between New York City and Washington D.C. offers everything international students would want from an American university. We host scholars from around the world in programs at the ELI (English Language Institute) and in undergraduate, graduate, and short-term programs.

Established in 1743, the University of Delaware is older than the United States, which was founded in 1776. This makes UD one of the oldest institutions in the U.S. Our legacy extends to three signers of the Declaration of Independence who were members of UD's first class, and continues today through trailblazing discoveries and innovative firsts. Among our faculty and alumni are Nobel Laureates, Fulbright, Rhodes, Marshal, Truman, and Goldwater scholars, as well as members of the National Academy of the Sciences.

The University of Delaware is located halfway between Washington, D.C. and New York, and is only a 45 minute drive away from Philadelphia. Public trains and buses offer easy transportation for students to travel between cities.

Strongest majors are in Engineering, Business, and the sciences. Our Chemical Engineering program ranks 8th in the U.S. according to the U.S. News and World Report, 2018.

Most popular majors for international students: Accounting, Chemical Engineering, Chemistry, Computer Science, Economics, Finance, Hospitality Management, Management Information Systems, Marketing, Mechanical Engineering

Introduction of Winter/Summer Camp

Join UD: a top-ranked university with an award-winning faculty, talented students and a variety of flexible programs that give you the freedom to craft a unique college experience.

Introduction of special shorter program

The Edge summer college program at the University of Delaware offers opportunities to talented high school students across the country moving into their junior or senior year. Students have the chance to learn at one of the most engaging colleges on the East Coast.
